Subject: **Supply of information under Right to Information Act, 2005 regarding date of release/publish of Wholesale Price Index [base year 2011-12].**

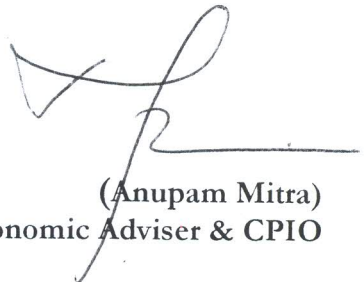

Sir,

This has reference to your online RTI application under registration no. DOIPP/R/2018/80141 dated 03/05/2018 received in this office on 09/05/2018 via Department of Industrial Policy & Promotion (DIPP) vide their letter No. I-11/150/2018-RTI dated 9th May-18 regarding date of release/publish of Wholesale Price Index [base year 2011-12].

2. In this connection, it is intimated that the Wholesale Price Index (WPI) series has been revised from base year 2004-05=100 to 2011-12=100 and the base year (2011-12=100) was launched on 12th May, 2017. The new series is effective from April 2017. Data of the new series of WPI (base year: 2011-12) have been provided from April-2012 to March-2017 in the website: eaindustry.nic.in for the purpose of research & analysis only.

3. If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Subject: **Supply of information under Right to Information Act, 2005 regarding implementation of GST on monthly Wholesale Price Index (WPI) w.e.f. 1st July, 2017 [base year 2011-12].**

Sir,

This has reference to your RTI application dated 17/05/2018 received in this office on 24/05/2018 regarding supply of following information under RTI Act, 2005:-

Query: a. Kindly confirm that after 01.07.2017, the base rate adopted to calculate the Wholesale Price Index is without GST

Reply: It is informed in respect of Wholesale Price Index (base year: 2011-12) prices used for compilation of the index do not consider Goods and Service Tax (GST).

Query: b. Before implementation of GST i.e. before 01.07.2017 what was the basis of calculation of Wholesale Price Index with regard to base rate of material i.e. whether the rates were inclusive of tax or without any tax.

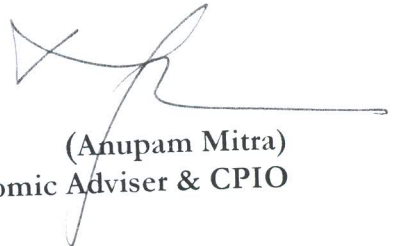

Reply: The estimates for Wholesale Price Index (WPI) under base year 2011-12 does not include any taxes.

Query: c. If, any tax is added please intimate the name of the tax (i.e. Excise /Sales tax/VAT etc) and its percentage added over the bare rate of material adopted to calculate the Wholesale Price Index.

Reply: No tax has been included while compiling WPI under base year 2011-12.

Udyog Bhawan, New Delhi- 110011
Dated: 5th June, 2018

Subject: Supply of information under Right to Information Act, 2005 regarding information on base year 2011-12 of the Fuel and Power Group and Linking Factor.

Sir,

This has reference to your RTI application dated 01/06/2018 received in this office on 04/06/2018 regarding supply of following information under RTI Act, 2005:-

Query: 6.1. Copies of Group/Sub-group recommendations given by them for the 2004-05 and 2011-12 base year for the Fuel and Power Group.

Reply: It is informed in respect of Group/Sub-group recommendations/ technical report of the working group for the Wholesale Price Index [WPI] base year: 2004-05 and 2011-12 is available in the public domain on the website of Office of the Economic Adviser (http://www.eaindustry.nic.in/uploaded_files/Technical_Report_Of_Working_Group.pdf) may be referred.

Query: 6.2. The details of the commodities kept in the of the Fuel and Power group of 2004-05 and 2011-12 WPI and their weightage.

Reply: The details on the basket of commodities included their weights under the Wholesale Price Index (base year 2011-12), the WPI Compilation Manual uploaded in website of Office of the Economic Adviser at http://www.eaindustry.nic.in/uploaded_files/WPI_Manual.pdf may be referred.

Query: 6.3. Basis of the suggested linking factor for WPI 2004-05 and 2011-12.

Reply: In view of the conceptual and methodological difference between the 2004-05 and 2011-12 series, the OEA does not prescribe or recommend to data users any particular method of linking, for conversion of index figures from one series to another. However as in the past, in order to maintain continuity in the time series data on wholesale price index, it is imperative to provide a linking factor so that the new series may be compared with the earlier one. **OEA has been using the arithmetic conversion method. According to this method, the ratio of the annual average WPI, for the respective major group, between the two series becomes the conversion factor. The linking factors for conversion of indices of the series with 2011-12 as its base to the earlier base of 2004-05 up to major group level have been as follows:**

	Average WPI in 2011-12 (with base year 2004-05)	Linking Factor
All commodities	156.1	1.561
Primary articles	200.3	2.003
Fuel & Power	169.0	1.690
Manufactured products	139.5	1.395

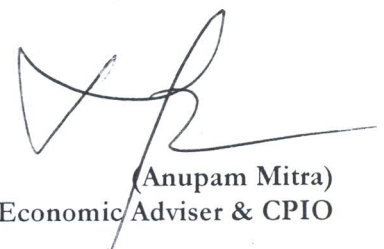

Linking factor given for conversion of WPI (2011-12) indices to WPI (2004-05) series should be used from April 2017 onwards.

OEA does not provide any linking factor at further disaggregate level of commodities, because the difference in the year to year price changes in the two series can be attributed to the differences in weights as well as price changes at the group /sub-group levels. Further, there could be other methods of linking the current and the new series. As a matter of policy, however, OEA does not prescribe or recommend to data users any particular method of linking, for conversion of index figures from one series to another. The choice of the method to link various price index series is left to be decided by the users. The users are to satisfy themselves regarding the conversion factor they calculate; OEA does not check/correct/verify any conversion factor or converted index figures.

5. *In this connection, it is intimated that the Office of the Economic Adviser does not issue any direction / advice for using WPI index. Users are free to use WPI as per their own requirement and depending on nature of item(s) used in construction / project work.* The compilation methodology of Index numbers of Wholesale Price in India with base year 2011-12 (new series) is also available in the website of Office of the Economic Adviser at www.eaindustry.nic.in.

If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Madam,

This has reference to your online RTI application regarding methodology of compilation of Wholesale Price Index (WPI).

2. The item basket of Wholesale Price Index (WPI) may be seen in the Manual on WPI at http://www.eaindustry.nic.in/uploaded_files/WPI_Manual.pdf. The compilation/calculation and methodology of Wholesale Price Index is as follows:-

- Compilation of Wholesale Price Index is done in stages. In the first stage, price relative for each price quotation is calculated. Price relative is calculated as the ratio of the current price (PI) to the base price (PO) multiplied by 100 i.e. $(P1/Po) \times 100$.
- In the next stage, commodity /item level index is arrived at as the simple geometric mean of the price relatives of all the quotations included under that commodity/item.
- Next, the indices for the sub-groups/groups/major groups are compiled on the principle of weighted arithmetic mean according to the Laspeyre's formula, which has fixed base year weights operating through the entire life span of the series.
- The price for compilation of WPI does not include any taxes.

The detailed methodology also can be downloaded from WPI compilation manual in the website of OEA (http://www.eaindustry.nic.in/uploaded_files/WPI_Manual.pdf).

3. If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Sh. G.S. Negi, Economic Adviser,
Room No.246, Office of the Economic Adviser,
Department of Industrial Policy & Promotion,
Udyog Bhavan, New Delhi-11

(Anupam Mitra)

Additional Economic Adviser & CPIO

(Wholesale Price Division)

Udyog Bhawan, New Delhi- 110011
Dated: 14th June, 2018

Subject: **Supply of information under Right to Information Act, 2005 regarding Wholesale Price Index (WPI) of monthly food inflation.**

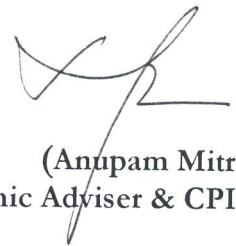

Sir,

This has reference to your online RTI application regarding supply of Wholesale Price Index (WPI) of monthly food inflation for the period of January, 1975 to January, 2017.

2. In this connection, it is informed that the monthly data on Wholesale Price Index (WPI) for food items from 1952-53 onwards is available in the website of Office of Economic Adviser at www.eaindustry.nic.in/home.asp by clicking on the 'WPI' link is left hand panel.

3. If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Sh. G.S. Negi, Economic Adviser,

Dated: 14th June, 2018

Subject: **Supply of information under Right to Information Act, 2005 regarding Wholesale Price Index [base year 2011-12].**

Sir,

This has reference to your online RTI application regarding clarification on Wholesale Price Index of C.R. Coil.

2. In this connection, it is intimated that the WPI for any item for any month is obtained by aggregating the price relatives of each quotation from whom data is collected. The price relatives for any quotation is calculated as the ratio of the monthly price to the base price. The details of the methodology for compilation of WPI may be seen from WPI manual uploaded at manual http://eaindustry.nic.in/uploaded_files/WPI_Manual.pdf.

3. If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Dated: 20th June, 2018

Subject: **Supply of information under Right to Information Act, 2005 regarding Wholesale Price Index [base year 2011-12] of Rebars.**

Sir,

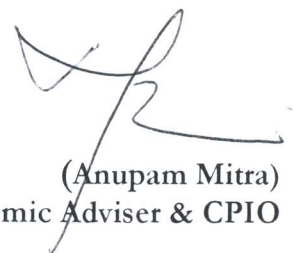

This has reference to your online RTI application under registration no. EADV/R/2018/50006 dated 12/06/2018 regarding 'Rebars'.

2. In this connection, it is intimated that the base year of the All-India WPI has been revised from 2004-05 to 2011-12. The commodity basket has been selected afresh reflecting structural changes in the economy. As such there may not be one to one correspondence between items of the 2004-05 and 2011-12 series. *The new series is effective from April 2017. Data of the new series of WPI (base year: 2011-12) have been provided from April-2012 to March, 2017 in the website: eaindustry.nic.in for the purpose of research & analysis only.* Rebars as an item is not available in WPI base year 2011-12, however, various related items are included under the sub-group of 'Manufacture of Basic Metals' under the major group titled "MANUFACTURED PRODUCTS" in WPI (2011-12). For a set of items in the old basket, there may be one-to-one (the common items between the two series given in the website), one-to-many or many-to-one matching items. **There may be some cases where the name of the item in old series is not exactly matching with the name in the new series, but there is an item in the new series which is otherwise technically same with the old series item. Similarity of the item should be decided carefully by the users. The users have to decide the items in the new series which are matching with the items of the old series used in the Escalation Clause.**

3. Regarding escalation clause, it may be stated here that Office of Economic Adviser is not a party to any escalation clause and as such cannot give direction for use of any particular item/sub-group/group/formula/linking factor etc. for application in price variation formula. Users may decide themselves the item/group of items in the new basket to be applied in a particular escalation clause depending on nature of item(s) used in construction/project work.

Subject: **Clarification as regards Wholesale Price Index (base year: 2004-05) of Stone item.**

Sir,

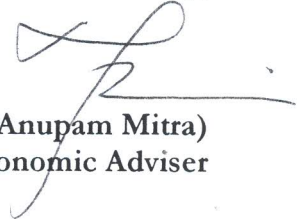

This has reference to your e-mail regarding clarification on Wholesale Price Index (WPI) of 'stone' and whether the item is available in the basket of Wholesale Price Index with base year 2004-05 or not.

2. In this connection, it is stated that there is an item by the name of 'Stone (Chip/Crushed/Finished/Slab)' in the item basket of WPI base year 2004-05.
3. In this connection, it is intimated that the Office of the Economic Adviser does not issue any direction / advice for using WPI index. Users are free to use WPI as per their own requirement and depending on nature of item(s) used in construction / project work.

This issues with the approval of competent authority.

Thanking you,

Yours faithfully,

(Anupam Mitra)
Additional Economic Adviser

Subject: **Application under RTI Act, 2005 received from Shri Chandra Prakash Verma, Raipur**

This has reference to your on-line RTI application under registration no. EADVR/R/2018/50008 dated 28th June, 2018 regarding provide the requisite information's on point- wise are as under:-

Sl. No.	Information Sought	Information Furnished
(a)	What is the reason of MS SLAB wholesale price index not increasing from July-2017 to May-2018?	It is informed that the price quotations used for compilation of Wholesale Price Index (WPI) is compiled usually on the basis of data received from multiple sources. However, sometimes sources turn non-responding due to closure, non-production of specified products etc.
(b)	Other steel wholesale price index increasing approx 30% but MS SLAB price is constant?	
(c)	Which organization provided data for wholesale price index?	The wholesale prices/data are collected purely on self-disclosure basis. Prices are collected from the concerned sources on the grounds of confidentiality wherein assurance is given to them that the prices furnished by them would be utilized in compilation of WPI and would not be disclosed to any outside source.

2. If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Dated: 11th July, 2018

Subject: **Supply of information under Right to Information Act, 2005 regarding Wholesale Price Index [base year 2011-12] of Linking Factor.**

Sir,

This has reference to your online RTI application under registration no. EADVR/R/2018/50009 dated 06/07/2018 regarding 'Linking Factor', which is used for the purpose of escalation and de-escalation.

In view of the conceptual and methodological differences between 2004-05 and 2011-12 series of WPI, the Office of Economic Adviser (OEA) does not prescribe or recommend to data users any particular method of linking for conversion of index figures from one series to another. However, following the earlier practice and in order to maintain continuity in the time series data on Wholesale Price Index (WPI) OEA has used the arithmetic conversion method to provide a linking factor so that the new series may be compared with the earlier one.

2. OEA does not provide any linking factor at further disaggregate level of commodities, because the difference in the year to year price changes in the two series can be attributed to the differences in weights as well as price changes at the group /sub-group levels. Further, there could be other methods of linking the current and the new series. As a matter of policy, however, OEA does not prescribe or recommend to data users any particular method of linking, for conversion of index figures from one series to another. The choice of the method to link various price index series is left to be decided by the users. The users are to satisfy themselves regarding the conversion factor they calculate; OEA does not check/correct/verify any conversion factor or converted index figures.

3. It may be noted that the main objective of compilation of WPI is for deflation of nominal values for preparation of GDP. WPI is not designed specifically for use in contract indexation. While this does not discount its use in contract indexation, it may not be the most appropriate index for the purpose of indexation. This limitation of WPI is known upfront to any agency which is using the WPI for the purpose of indexation.

4. Regarding escalation clause, it may be stated here that OEA is not a party to any escalation clause and as such can not give direction for use of any particular item / subgroup / group / formula / linking factor etc. for application in price variation formula. Users may decide themselves the item/ group of items in the new basket to be applied in a particular escalation clause depending on nature of item(s) used in construction / project work.

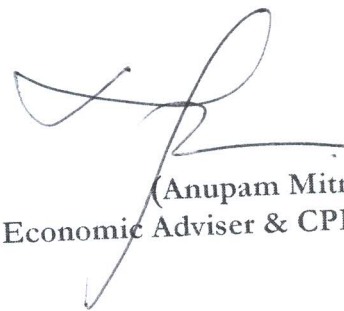

5. Office of Economic Adviser does not encourage or discourage the use of price adjustment measures in purchase or sale agreements. Nor does Office of Economic Adviser directly assist in writing contracts or provides advice on disputes arising from contract interpretation. The role of Office of Economic Adviser is restricted to publishing price index data, and broadly explaining the underlying methodology and general limitations on such data. Price indexes published by the Office of Economic Adviser provide summary measures of the movements in various categories of prices over time.

contd....

6. No representation or assurance is given that any published indices by Office of Economic Adviser are appropriate for use by persons or that the Office of Economic Adviser will continue to publish any of the price indices, publish them at a particular time or that the methodologies for their determination will not be changed or that they will be suitable for use in any indexation clauses.

7. If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Subject: **Supply of information under Right to Information Act, 2005 regarding Wholesale Price Index [base year 2011-12] of 'Rebar'.**

Sir,

This has reference to your RTI application dated 07/07/2018 regarding 'Rebar'.

2. With the revision of base year of Wholesale Price Index (WPI) at periodic intervals, the commodity basket is selected afresh based on the structural changes in the economy and relative importance of the commodity as indicated by net traded value. Being an economy-wide index, it is natural for WPI to capture the most important of the items. Selection of items also depends on the availability of the information and manageability of the number of quotations since WPI is released with a lag of only 14 days. As a result many commodities and items may not find a place in the WPI. Selection of the commodity basket was done by Working Group under chairmanship of Late Dr. Saumitra Chaudhuri, former Member of Planning Commission. Users of WPI should keep in mind that for a set of items in the old basket there may be one to one, one to many or many to one matching items. There may be some cases where the name of the items in the old series is not exactly matching with the name in the new series, but there is an item in the new series which is, otherwise, technically same with the old series items. Similarity of the item should be decided carefully by the users. Data is collected from designated source agencies under the clause of confidentiality wherein assurance is given that the identity of the source agency will be kept confidential. The users have to decide the items in the new series which are matching with the items of the old series used in escalation clause. The detailed methodology of compilation of WPI is available in the WPI manual uploaded in the website of Office of Economic Adviser at eaindustry.nic.in/uploaded_files/WPI_Manual.pdf.

Sl. No.	Information Sought	Information Furnished
(1)	China trade surplus with our country in 2018 was \$ 65.1 billion and china investment in the country is \$ 1.9 billion. I wish to know with facts and figures what Make in India has done to reduce our trade deficit with various countries including china since launch of Make in India and how much employment has been created by this initiative.	Make in India is an initiative which aims at promoting India as an investment destination and a global hub for manufacturing, design and innovation. Initiatives under Make in India are also targeted towards employment creation and skill development. Activities post launch of Make in India initiative are being undertaken by several Central and State Government departments. Segregated outcome of Make in India is not worked out.

Udyog Bhawan, New Delhi- 110011
Dated: 25th January, 2019

Subject: Application under RTI Act, 2005 received from Shri Sanjay Kumar Joshi, Bhilai, Chattisgarh

This has reference to your on-line RTI application under registration no. DOIPP/R/2019/50034 dated 18th January, 2019, which has been received in this office on 22nd January-19 via Department of Industrial Policy & Promotion (DIPP), M/o Commerce & Industry vide their letter no. I-11/34/2019-RTI dated 21st January-19.

Sl. No.	Information Sought	Information Furnished
(1)	Kindly give break up of components which constitute the WPI monthly index for item-Steel Structures.	The components of Wholesale Price Index of "Steel Structures" include i.e. (i) Transmission Line Tower & Parts, (ii) Galvanised Transmission Line Tower Parts, (iii) Galvanized Transmission Line Tower Structure, (iv) High Tension Tower and (v) Joist (Beam)-400*140 etc..
(2)	Is steel prices include in steel structures as it is not changing with change in steel prices.	While every effort has been taken to ensure accuracy of the index, it must be noted that the statistical accuracy of WPI depends heavily on quality of information provided by respondents. OEA relies on the cooperation of business establishments and emphasizes on submission actual transaction prices, including all discounts. Such prices are collected under condition of confidentiality wherein assurance is given to data sources that prices collected by them would be used for construction of indices only and not shared with any other entity. A price index measures price changes for a fixed set of goods. For any set of goods a representative subset is selected for pricing. The subset is a sample of the whole population of prices and is intended to represent price change in the whole set of goods being studied. A price index is a statistical measure that presents a summary of the price changes of the goods represented by the items in its basket. This basket is itself a statistical estimate, representing the experience of households or businesses or the economy at a particular period. The impact of a price change of any commodity in the item basket of the WPI depends on the cumulative impact of its weights and extent of price change vis-a-vis base price and not on price change alone. The results have certain properties such as variability, sample and non-sample error and defined scope or boundaries.

2. Further, it is informed that the Wholesale Price Index (WPI) is divided into three major groups [i.e. (i) Primary Articles, (ii) Fuel & Power and (iii) Manufactured Products], which are further categorized into groups and sub-groups. The item "Steel Structures" comes under the sub-group of "Manufacture of Fabricated Metal Products, Except Machinery & Equipment", under the Major group of "Manufacture Product". The detailed methodology of compilation of WPI for 2011-12 series may be seen at http://www.eaindustry.nic.in/uploaded_files/WPI_Manual.pdf.

Udyog Bhawan, New Delhi- 110011

Dated: 20th February, 2019

Subject: **Supply of information under Right to Information Act, 2005 regarding clarification on Linking Factor applied on Wholesale Price Index.**

Sir,

This has reference to your RTI application dated 24/01/2019, which has been received in this office on 19th February, 2019 via Department of Industrial Policy & Promotion (DIPP), M/o Commerce & Industry vide their letter no. I-11/86/2019-RTI dated 18th February-19 regarding 'Linking Factor', which is used for the purpose of escalation.

2. In view of the conceptual and methodological differences between 2004-05 and 2011-12 series of WPI, the Office of Economic Adviser (OEA) does not prescribe or recommend to data users any particular method of linking for conversion of index figures from one series to another. However, following the earlier practice and in order to maintain continuity in the time series data on Wholesale Price Index (WPI) OEA has used the arithmetic conversion method to provide a linking factor so that the new series may be compared with the earlier one. The linking factors for conversion of indices of the series with 2011-12 as its base to the earlier base of 2004-05 up to major group level have been as follows:

	Average WPI in 2011-12 (with base year 2004-05)	Linking Factor
All commodities	156.1	1.561
Primary articles	200.3	2.003
Fuel & Power	169.0	1.690
Manufactured products	139.5	1.395

Linking factor given for conversion of WPI (2011-12) indices to WPI (2004-05) series should be used from April 2017 onwards.

3. OEA does not provide any linking factor at further disaggregate level of commodities, because the difference in the year to year price changes in the two series can be attributed to the differences in weights as well as price changes at the group /sub-group levels. Further, there could be other methods of linking the current and the new series. As a matter of policy, however, OEA does not prescribe or recommend to data users any particular method of linking, for conversion of index figures from one series to another. The choice of the method to link various price index series is left to be decided by the users. The users are to satisfy themselves regarding the conversion factor they calculate; OEA does not check/correct/verify any conversion factor or converted index figures.

4. It may be noted that the main objective of compilation of WPI is for deflation of nominal values for preparation of GDP. WPI is not designed specifically for use in contract indexation. While this does not discount its use in contract indexation, it may not be the most appropriate index for the purpose of indexation. This limitation of WPI is known upfront to any agency which is using the WPI for the purpose of indexation.

5. Regarding escalation clause, it may be stated here that OEA is not a party to any escalation clause and as such can not give direction for use of any particular item / subgroup / group / formula / linking factor etc. for application in price variation formula. Users may decide themselves the item/ group of items in the new basket to be applied in a particular escalation clause depending on nature of item(s) used in construction / project work.

6. Office of Economic Adviser does not encourage or discourage the use of price adjustment measures in purchase or sale agreements. Nor does Office of Economic Adviser directly assist in writing contracts or provides advice on disputes arising from contract interpretation. The role of Office of Economic Adviser is restricted to publishing price index data, and broadly explaining the underlying methodology and general limitations on such data. Price indexes published by the Office of Economic Adviser provide summary measures of the movements in various categories of prices over time.

contd....

No representation or assurance is given that any published indices by Office of Economic Adviser are appropriate for use by persons or that the Office of Economic Adviser will continue to publish any of the price indices, or that they will be suitable for use in any indexation clauses.

8. If, you are not satisfied with this response you may prefer an appeal within 30 days from the date of receipt of this letter. The name and address of the appellate authority is as follows:-

Sub:-Assignment of CPIO for RTI related queries.

The undersigned had been nominated as CPIO for RTI queries related to technical matters in this office. Shri H.P.Jaiswal, Deputy Director was designatd as CPIO for RTI queries related to Administrative matters. Since the transfer to of Shri H.P. Jaiswal, no new CPIO has been nominated. Further this office has been assigned some specific work related to Make in India Scheme including Parliament Questions and RTI related to Make in India. This office has been receiving a large number of RTI queries related to Make in India Scheme.

Accordingly it is proposed that a decision may be taken for following:-

- i) Designation of new CPIO for Administrative matters.
- ii) Designation of new CPIO for queries related to Make in India.

The same will be uploaded on the website of OEA

क्रम संख्या	मांगी गई जानकारी	प्रस्तुत जानकारी
1.	क्या 2011-12 की थोक मूल्य सूचकांक श्रृंखला के किसी उपयोग माह कमोडिटी का सूचकांक माह अप्रैल-16 से मार्च-17 तक मूल्य समायोजन बनाने के लिए किया जा सकता है।	आधार वर्ष 2011-12 अप्रैल, 2017 से प्रभाव में है। थोक मूल्य सूचकांक की नई श्रृंखला (आधार वर्ष: 2011-12) के आंकड़े अप्रैल-12 से मार्च-17 तक कार्यालय की वेबसाइट eaindustry.nic.in पर केवल अनुसंधान और विश्लेषण के उद्देश्य से उपलब्ध करवाए गये हैं।
2.	क्या थोक मूल्य सूचकांक श्रृंखला 2011-12 के किसी कमोडिटी का सूचकांक माह अप्रैल-16 के आधार मूल्य को निर्धारित करने के लिए किया जा सकता है।	
3.	यदि उपरोक्त प्रश्नों के उत्तर नहीं हैं तो:- i- अप्रैल-16 हेतु ग्रे सीमेंट का सूचकांक क्या है? (कृपया संबंधित दस्तावेज उपलब्ध करवाएं) ii- अप्रैल-17 हेतु ग्रे सीमेंट का सूचकांक क्या है? (कृपया संबंधित दस्तावेज उपलब्ध करवाएं) iii- यदि कार्य अप्रैल-16 से अप्रैल-18 तक किया गया है तो ग्रे सीमेंट का आधार मूल्य क्या होगा तथा अप्रैल-16 से अप्रैल-18 तक ग्रे सीमेंट का सूचकांक प्रदाय करने का कष्ट करें। (संबंधित दस्तावेज के साथ) iv- यदि 2011-12 की थोक मूल्य सूचकांक श्रृंखला में ग्रे सीमेंट नहीं है तो ग्रे सीमेंट की जगह किसी कमोडिटी का सूचकांक चुना जाये?	ग्रे सीमेंट थोक मूल्य सूचकांक (आधार वर्ष: 2011-12) में शामिल नहीं है। थोक मूल्य सूचकांक (आधार वर्ष: 2004-2005) और थोक मूल्य सूचकांक (आधार वर्ष 2011-12) के बीच वस्तुओं की समानता उपयोगकर्ता द्वारा स्वयं स्थापित की जानी है।

(v) सीमेंट के लिए किस लिकिंग फैक्टर का उपयोग किया जाना चाहिए?

जवाब: 2004-05 और 2011-12 की श्रृंखला के बीच वैचारिक और पद्धतिगत असमानता के मद्देनजर, आर्थिक सलाहकार का कार्यालय एक श्रृंखला से दूसरी श्रृंखला में आंकड़ों के रूपांतरण के लिए किसी भी विशेष विधि का निर्धारण या लिकिंग फैक्टर के प्रयोग की सिफारिश नहीं करता है। हालांकि अतीत की तरह, थोक मूल्य सूचकांक पर टाइम सीरिज़ के आंकड़ों में निरंतरता बनाए रखने के लिए, एक लिकिंग फैक्टर का होना अनिवार्य है ताकि नई श्रृंखला की तुलना पहले वाले के साथ की जा सके। आर्थिक सलाहकार का कार्यालय अंकगणितीय रूपांतरण पद्धति का उपयोग करता रहा है। इस पद्धति के अनुसार, दो प्रमुख श्रृंखलाओं के बीच संबंधित प्रमुख समूह के लिए उनका वार्षिक औसत उनका रूपांतरण फैक्टर बन जाता है। आधार वर्ष 2011-12 की श्रृंखला के सूचकांकों के पूर्व आधार वर्ष 2004-05 श्रृंखला से रूपांतरण के लिए प्रमुख समूह स्तर के लिकिंग फैक्टर निम्नानुसार है:

	औसत थोक मूल्य सूचकांक 2011-12 (आधार वर्ष 2004-05 के साथ)	लिकिंग फैक्टर
सभी वस्तुएं	156.1	1.561
प्राथमिक वस्तुएं	200.3	2.003
ईंधन एवं बिजली	169.0	1.690
विनिर्मित उत्पाद	139.5	1.395

थोक मूल्य सूचकांक (2011-12) के सूचकांकों को थोक मूल्य सूचकांक (2004-05) श्रृंखला में बदलने के लिए दिए गए लिकिंग फैक्टर को अप्रैल 2017 से उपयोग किया जाना चाहिए।

आर्थिक सलाहकार का कार्यालय वस्तुओं के अलग स्तर के लिए कोई लिकिंग फैक्टर उपलब्ध नहीं करता है, क्योंकि दो श्रृंखलाओं में वर्ष-दर-वर्ष मूल्य में परिवर्तन के लिए भार में अंतर के साथ-साथ समूह / उप-समूह स्तर में मूल्य परिवर्तन भी एक कारक हो सकता है। इसके अलावा, वर्तमान और नई श्रृंखला को जोड़ने की अन्य विधि भी हो सकती है। हालांकि, नीतिगत तौर पर आर्थिक सलाहकार का कार्यालय एक श्रृंखला से दूसरी श्रृंखला के सूचकांक के आंकड़ों के रूपांतरण के लिए आंकड़ों के उपयोगकर्ताओं को, लिंक करने के किसी विशेष विधि का निर्धारण या अनुशंसा नहीं करता है। विभिन्न मूल्य सूचकांक श्रृंखलाओं को लिंक करने की विधि का चयन आंकड़ों के उपयोगकर्ताओं पर छोड़ दिया गया है। उपयोगकर्ताओं को गणना करने के लिए रूपांतरण फैक्टर के चयन हेतु स्वयं को संतुष्ट करना है: आर्थिक सलाहकार का कार्यालय किसी भी रूपांतरण फैक्टर एवं परिवर्तित सूचकांक के आंकड़ों की जांच / सुधार / सत्यापन नहीं करता है।

इस संबंध में, यह सूचित किया जाता है कि आर्थिक सलाहकार का कार्यालय थोक मूल्य सूचकांक का उपयोग करने के लिए कोई निर्देश / सलाह जारी नहीं करता है। उपयोगकर्ता अपनी आवश्यकता के अनुसार थोक मूल्य सूचकांक का उपयोग करने के लिए स्वतंत्र हैं और यह निर्माण / परियोजना के काम में उपयोग की जाने वाली वस्तु की प्रकृति पर निर्भर करता है। आधार वर्ष 2011-12 (नई श्रृंखला) के साथ

157.
भारत में थोक मूल्य सूचकांक संख्या की संकलन पद्धति आर्थिक सलाहकार के कार्यालय की वेबसाइट
www.eaindustry.nic.in पर भी उपलब्ध है।

2. यदि, आप उपलब्ध करवाई गई जानकारी से संतुष्ट नहीं हैं तो आप इस पत्र की प्राप्ति की तारीख से 30 दिनों के अंदर अपील कर सकते हैं।

अपीलीय प्राधिकारी का नाम एवं पता इस प्रकार है: -

श्री गोपाल सिंह नेगी,
आर्थिक सलाहकार,
कमरा संख्या 246, आर्थिक सलाहकार का कार्यालय,
उद्योग संवर्धन एवं आंतरिक व्यापार विभाग,
उद्योग भवन, नई दिल्ली-110011

अनुपम मित्रा

(अनुपम मित्रा)

अपर आर्थिक सलाहकार एवं
केन्द्रीय लोक सूचना अधिकारी

श्री बिजेन्द्र प्रसाद चौरसिया,
लोक निर्माण विभाग कॉलोनी,
बारापत्थर सिवनी (मध्य प्रदेश) 480661
